How to Use This Deck

CARD N-GUIDE-01 USAGE • SOURCE DISCIPLINE

Three-pass revision method + reading protocol

PASS 1 • Map	Read the two-page cheat sheet and six maps. Do not memorise isolated numbers before identifying the leave event and employee category.
PASS 2 • Audit	Read each Rule card: q identifies the issue; rows audit printed provisions; TRAP marks the usual exam substitution; Authority gives the dated source.
PASS 3 • Apply	Attempt short cases → multi-issue cases → numerical drills → Sets A/B/C. Maintain an error log: rule, wrong assumption, correct trigger, source and next review date.
Colour key	Navy/orange = structure; amber = trap/caution; green = current position; red strikethrough = obsolete position. “Current” always refers to 01.11.2026.
Reference key	N-R… = rule; N-F… = Schedule/Form; N-L… = linked instrument; N-FAQ… = official FAQ. D-xx = drill. Click references in the PDF/HTML.
Printing	Print A4 at 100% / actual size with backgrounds on. Do not choose “fit to paper” if it changes pagination. Footers show deck, version, law date and Page X/Y.
Evidence discipline	A consolidation or guidance OM is not automatically an amendment. Check operative text, commencement, scope, sunset/reopening clauses and subsequent orders.
Open items	Only controlled verification items appear in the register. Form 2’s exact facsimile is not redrawn from partial evidence; sister-service/SCL exhaustiveness is expressly bounded.

4. Use separate-credit mechanics for opening 286–300.
5. Debit leave/commutation and record the Form 2 closing balance.

Evidence before sanction

- Rule 19 MC/waiver: distinguish medical leave from non-medical leave.
- Adoption/foster care and surrogacy: use the operative clause and event date.
- CCL any-age offspring: specified disability ≥40%; retain ordinary care conditions.
- Organ/blood SCL: authorised/licensed institution, recommendation/proof and day limits.
- Study: probation/service, course approval, bond and scholarship adjustment.

Window ≠ quantum ≠ account pool

- Paternity is 15 days, but ordinary/adoption/surrogacy windows differ.
- Adoption leave requires child below 1; continuation uses 1 year minus age.
- Special maternity 60 days is OM-based and conditional, not a second 180-day grant.
- CCL 730 is career-wide for two eldest surviving children, not yearly/per child.
- Study combination ceilings include vacation; do not count study leave alone.

Numbers are entry points, not substitutes for conditions. Open the linked rule card before applying a ceiling.

Form/party	Rule 53(4) personal bond by a permanent servant proceeding on study leave; no surety structure is used in this form.
Trigger/amount	Failure to resume; resignation/retirement/quitting without return; non-completion; or quitting within three/five years after return triggers stated amount plus interest/costs.
Bond-period extension	Service obligation extends by a period comparable to aggregate leave of any kind availed during the bond currency.
Explanation	“Currency of bond” is when liability is activated and Government’s right to claim the stipulated amount is alive.

TRAP Forms 7–10 expressly extend the bond period for intervening leave; do not read the three/five-year period as necessarily uninterrupted calendar time.

What is the legal function of DoPT's 08.04.2025 "Leave" OM?

Function	It summarises earlier OMs for guidance; it is not a replacement consolidation of the CCS Leave Rules.
Para 1 → Rule/interface	Organ-donor SCL up to 42 days → OM 25.04.2023 and Appendix-III SCL interface.
Para 2 → Rule/interface	Special maternity leave 60 days → OM 02.09.2022 alongside Rule 43.
Para 3 → Rule/interface	Contract-officer EL encashment → OM 20.06.2019; contract terms remain essential because Rule 2(h) applies only where contract provides otherwise.

What are all six conditions for 60-day Special Maternity Leave?

Event + start	Stillbirth or death of a child soon after birth; special maternity leave of 60 days from the date of death/stillbirth.
(i) Maternity leave running	If maternity leave continues to the event, earlier maternity leave up to death may convert to other available leave without insisting on MC; then grant 60-day special maternity leave.
(ii) No maternity leave availed	The 60 days may be granted from the event even where maternity leave was not availed.
(iii)–(iv) Definitions	"Soon after birth" means up to 28 days after birth; stillbirth means no signs of life at or after 28 weeks' gestation.
(v)–(vi) Eligibility/hospital	Fewer than two surviving children and delivery only in authorised hospital: Government or CGHS-empanelled private; emergency non-empanelled delivery needs emergency certificate.
Commencement/past cases	Applies to Rule 2 Central civil servants from 02.09.2022; settled past cases need not be reopened.

What is the current Casual Leave core, and where is its boundary with regular leave?

Annual entitlement	Eight CL days in a calendar year for ordinary Central civil-office staff, effective 01.01.1998; mid-year joiners may receive full or proportionate CL at competent-authority discretion.
At a time	Normally not more than five days at one time; Head of Office may relax in exceptional individual circumstances.
Half day/late attendance	Half-day CL is permissible with lunch-interval division; each late attendance/early departure may debit half-day CL, with up to one hour on at most two occasions/month condonable for unavoidable reasons.
Status/combination	CL is not recognised leave under Rule 11 and does not combine with regular leave; the brochure contains a narrow half-day/next-working-day sickness-or-compelling-ground exception.

CARD C-M01 MULTI-ISSUE CASE

Advance credit, dies non and the ceiling — A non-vacation servant opens a half-year at 290 EL. Previous half-year included 20 EOL and 10 dies non; no EL is taken in the current half-year. Advise on reduction, separate-credit procedure and closing balance.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
Reduction	**N-R27-01**	EOL+dies non=30; reduction is 3, so nominal advance is 12 after nearest-day calculation.
Ceiling procedure	**N-R26-01**	Opening 290 falls in 286–300; the advance due is handled through the separate-credit mechanism, not blindly added.
Closing	**N-R26-01**	With no EL taken, ordinary separate 15 would lapse above cap; applying the actual reduced credit requires recording 12 separately and closing remains 300.
Caution	**N-F02-01**	Do not both reduce the credit and assume a full 15 in the final ledger calculation.

Vacation forfeiture and HPL — A Vacation Department servant is ordered by higher authority to forgo 18 days of a 60-day vacation and avails the remainder. The office proposes 10 EL and 20 HPL for the year. Decide.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
Deemed vacation	N-R28-01	Because an order prevented enjoyment of more than 15 days, the servant is considered to have availed no portion of vacation.
EL	N-R28-01	Rule 26 applies instead of the 5+5/proportional clauses; ordinary non-vacation EL computation is 30 for a full year, subject to account rules.
HPL	N-R29-01	Routine 10+10 HPL advance is not available to a Vacation Department servant under current Rule 29(1).

Certificate waiver, return and overstay — A non-Gazetted servant gets two days' leave without MC, then remains absent four more days without extension. The office calls all six days commuted leave and grants full pay. Audit the action.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
First two days	N-R19-01	MC waiver is permissible up to three days, but the leave is not on medical certificate and is not automatically commuted.
Overstay salary	N-R25-01	All four unauthorised overstay days carry no leave salary.
Overstay account	N-R25-01	Debit HPL to the extent due and treat excess as EOL; wilful absence may attract discipline.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
Commuted account	N-R30-01	The 30 commuted days caused a 60-day HPL debit and full Rule 40(1) leave salary during leave.
LND account	N-R31-01	The 60 LND days are debited against future HPL and count in the 360-day career ceiling.
Post-return resignation	N-R31-01	The servant refunds leave salary for the 20 LND days not subsequently earned, unless a printed recovery exception applies.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
Career ceiling	N-R38A-01	Earlier 55 + proposed10 exceeds the 60-day career aggregate; maximum on career ground is 5.
Residual floor	N-R38A-01	48 −8 leave −10 encashment =30, so the residual test alone would permit10; the career cap still restricts to5.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
Day cap	N-R39-01	EL+HPL encashment is capped at 300; HPL can fill only the 10-day shortfall after 290 EL.
Formula	N-R39-01	EL and HPL components use their respective leave salaries plus DA, divided by30, with no HPL commutation.

First class	N-R39C-01	Widow is first; for multiple widows use eldest surviving widow.
Seniority test	N-R39C-01	"Eldest" is seniority by marriage date, not age; the earlier-married widow takes precedence even if younger.
Later classes	N-R39C-01	Adopted son is in the next class; father precedes married daughter in the statutory sequence.

Combined ceiling	N-R39-01	Only 50 days remain within 300 including the earlier retirement encashment.

Foster care, valid adoption and age reduction — A female servant with no surviving children takes 180 CAL on accepting a five-month-old in pre-adoption foster care. Valid adoption occurs when the child is eight months old. She seeks continuation and asks what happens if adoption fails.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
Initial CAL	N-R43B-01	180 days immediately after foster-care acceptance is within the current gateway because the child was below one year.
Continuation age	N-R43B-01	On valid adoption, use eight months—the age at valid adoption—not five months.

Probation, single male and inpatient relaxation — A divorced male probationer has used three CCL spells and seeks a five-day fourth spell when his child is admitted as an inpatient. The office says probation and sex both absolutely bar it. Decide.

RULE-BY-RULE SOLUTION

Issue	Rule / card	Application
Eligible person	**N-R43C-01**	A divorcee is a single male under the Explanation, so sex/status is not an absolute bar.
Probation	**N-R43C-01**	Probation is an ordinary restriction, but extreme situations permit a minimal sanction at authority's satisfaction.

V-02	[VERIFY] Open — scope	Exhaustive event-by-event Special Casual Leave catalogue and every sister-service instrument	Core CCS rules and identified exam-linked SCL/CL orders are covered; no claim of exhaustive SCL or separate AIS/Railway/Defence audits.	Build separate instrument-specific decks where the exam notification expressly includes them. • Next scope review
V-03	Resolved	Rule 56(4) geographical reach	Resolved by DoPT OM 08.09.2026: both within and outside India.	None • Deck build
V-04	Resolved	Whether LTC-period EL encashment reduces the later normal terminal ceiling	Resolved by current Rule 38-A(4): it is not deducted from quantum normally encashable under Rules 6, 39, 39-A, 39-B, 39-C and 39-D.	None • Deck build

Residual gaps — explicitly not hidden

Gap	Boundary / next step
G-01 • Form2 facsimile	The rule and corroborated ledger content are covered; exact image-only column numbers/notes await a readable official facsimile (V-01). No invented form is substituted.
G-02 • SCL event catalogue	Identified exam-linked CL/SCL provisions are covered; an exhaustive audit of every SCL event in the separate brochure is not claimed (V-02).
G-03 • Sister-service codes	AIS/Railway/Defence boundaries and principal sister instruments are mapped, but their independent clause-by-clause audits require separate decks (V-02).
G-04 • Unpublished/local delegations	The First Schedule and printed delegation rule are covered; every Ministry's internal delegation/office order cannot be inferred and must be checked for a real sanction.

Gap	Boundary / next step
G-05 • Search-completeness limit	Official/secondary indexes were checked through01.11.2026 and one post-consolidation leave-specific OM (08.09.2026) was found. An empty search result is not proof that no unindexed instrument exists; source watch remains a release task.

Appendix K • Long-Answer Skeleton & Exam Traps

Six-part answer skeleton

Move	What to write
1 • Issue + coverage	Name the precise issue; establish Rule2 coverage, employment status and applicable instrument/date before calculating.
2 • Rule + linked order	State the current rule/sub-rule/proviso and then the linked Gazette/OM. Distinguish substantive entitlement from administrative guidance.
3 • Elements/conditions	Use a numbered list: eligible person, event, quantum, window, evidence, competent authority, pay and account treatment.
4 • Application	Apply each element to the facts. Show date/day/pay working with formulas and nearest-day/rounding conventions where relevant.
5 • Exception + discretion	Test Rule7, special provisos, minimum/maximum, relaxation and whether the benefit is automatic or discretionary.
6 • Conclusion + citation	Give a direct conclusion, cross-reference the governing rule/form and note any unresolved fact instead of guessing.

Three last-minute exam traps

Trap	Triage
Trap 1 • Ceiling substitution	300 accumulation,180 ordinary EL at a time,150 resignation days,360 LND,730 CCL and24-month study leave answer different questions. Circle the event before selecting a number.
Trap 2 • Deleted text in old notes	Rules18,35–37,45–46 and57–59 are deleted/omitted. Do not “complete” a question from an old bare-act compilation.
Trap 3 • Guidance mistaken for amendment	The08.04.2025 OM summarises earlier orders; the08.09.2026 OM clarifies Rule56(4). Neither rewrites every leave rule. Check the actual operative clause.

Source and review protocol

Control	Release rule
Source hierarchy	Gazette/official consolidation → nodal DoPT/MoF → official institution/PIB → reputable reproduction for readability only.
No-guess rule	Unresolved identifiers, values and mappings are logged in the verification register; the deck does not silently fill them.
Number protocol	Credit, cap, date and ₹ workings are generated by JavaScript; independent formula assertions are run on every build. Illustrative DA/pay assumptions are labelled in the question.
Version protocol	Rule propositions use law as on01.11.2026. Superseded provisions remain only in history/Obsolete→Current or clearly marked printed-lineage notes.
Layout protocol	A4 portrait, navy/orange accents, amber traps, green current rules, red strikethrough obsolete text, DejaVu Sans with ₹ glyph. Cards avoid page breaks; only deliberate section/cheat-sheet breaks are used.
Release protocol	Validate IDs/links, outline/contents, pagination, answer spread, raw verification markers and card splits; render page images/contact sheets for visual inspection; record results in the change/validation log.
